

WARM LINE

Now there's a way to ensure the safety of your loved ones in emergency situations. When injury or panic makes it difficult to dial an emergency number, WARM LINE makes sure that they - your children, parents, or a sick relative - easily reach someone who can help.

Just 30 seconds after taking the phone off the hook, a predesignated number is automatically dialed. For regular calls, you just pick up the phone and dial any telephone number within 30 seconds.

To use WARM LINE...

- Lift the handset and wait 30 seconds.
- After 30 seconds, the predesignated number**is automatically dialed.

To prevent automatic dialing...

- Lift handset and dial the number you wish to call before 30 seconds have lapsed.

***The predesignated number is chosen by you at the time you select WARM LINE. To change the predesignated number, you must contact NATCO's business office.*
