

SELECTIVE CALL ACCEPTANCE

Gives you control over which calls you'll take.

Selective Call Acceptance screens incoming calls against a list of numbers you specify and then accepts calls from only those numbers on the list. Gives you ultimate control over your incoming calls.

How To Use:

- Pick up the handset and listen for the dial tone.
- Press *68.
- Listen for an announcement telling you whether the feature is currently on or off. The recorded voice will then tell you how many (if any) numbers are currently stored on your acceptance list.
- Follow the voice instructions and dial 3 to turn the feature ON (if it is currently off), or turn the feature OFF (if it is currently on).

To add the last caller to your acceptance list:

- Press #01#

To hear the phone numbers on your list:

- Dial 1
- After the list is read, voice instructions will follow.

To add a number to your list:

- Press #
- Follow the voice instructions you'll hear. You can store up to 31 phone numbers on your list.

To remove a number from your list:

- Press *
- Follow the voice instructions to remove any or all of those numbers.

To hear instructions again:

- Dial 0
-

When someone calls:

- When your service is turned ON, you'll receive calls only from those on your acceptance list.
- Callers who are not on your list will simply hear an announcement that you are not accepting calls at this time.

Notes:

- You may press 1, 0, #, or * at any time rather than waiting for the voice instructions.
- The list you create here is separate from any other lists you may be using for Distinctive Ringing, Selective Call Forwarding, Selective Call Rejection, and similar services.
